## PROFESSIONAL EXPERIENCE

**Boston Fusion Corp.** | Lexington, MA — Front End Web Developer  
Feb 2017 - Present

- Lead fast paced development on multiple projects using Javascript, Python, HTML and CSS.
- Build RESTful APIs on top of SQL, NoSQL and graph databases.
- Meet strict contract deadlines and deliver high quality products with maintainable code.

**General Assembly** | Boston, MA — Web Developer  
August 2016 - November 2016

- 12-week immersive course with over 600 hours of training.
- Developed full stack and front-end projects on a deadline using several languages, frameworks and database structures.

**Friends of Thai Daughters** | MA / Thailand — Media Manager  
March 2016 - November 2016

- Designed and managed website to inform visitors about human trafficking and drive donations to support at-risk children.

## WEB DEVELOPMENT PROJECTS

### Flix With Friends (in progress)

A full stack single page application that allows you to rate movies. The goal is to give you and your friends the best movie choice based on your mutual tastes. I am building this app using an Ember.js client and Ruby on Rails API.

### Golf Handicap Calculator +

A full stack single page application built using JavaScript, jQuery and Sass on the client and a Ruby on Rails API built using test-driven development. With an account on GHC+, you can record your rounds of golf and track your handicap.

### Sweatersforturtles.com

A team built E-commerce site that uses Node.js, Express.js, Mongoose and MongoDB for its API. It connects to the Stripe API for customer payments.

### Stranger Tic Tac Toe

A basic tic tac toe game with an added theme inspired by the show Stranger Things. This app uses jQuery and Sass for animation and styling.

## Technical Skills

### Core Languages:

JavaScript, Python, Ruby,  
HTML, CSS, SQL

### Frameworks:

Ruby on Rails, Flask,  
Vue.js, Ember.js,  
Express.js

### Visual Libraries:
