PROFESSIONAL EXPERIENCE

Groovie | Denver, CO - Founder
Jul 2018 - Present

- Building website that helps cut down on the time it takes to select a movie with a group of friends. Allows users to track movies they have seen, want to see and are not interested in, then makes suggestions based on each member in your group's history and preferences.
- Deployed beta website for live user testing

Freelance Web Developer | Denver, CO
Jan 2018 - Present

- Work with teams and individuals from contracting companies to meet all client needs to the highest standards.
- Handle projects ranging from UI and API builds to E-Commerce sites requiring custom theming and features.

Boston Fusion Corp. | Lexington, MA — Front End Web Developer
Feb 2017 - Dec 2017

- Lead fast paced development on multiple projects using Javascript, Python (Flask), HTML and CSS.
- Build RESTful APIs on top of SQL, NoSQL and graph databases.

General Assembly | Boston, MA — Web Developer
August 2016 - November 2016

- 12-week immersive course with over 600 hours of training.
- Developed full stack and front-end projects on strict deadlines.

WEB DEVELOPMENT PROJECTS

MACE
A project designed for intelligence officers to explore and grow a multi-modal graph database. Users can upload video, audio or news articles to add the contents to the database. MACE attempts to find latent relationships which become searchable and visualized in the UI.

RACER
A job search website geared for members of the military transitioning into civilian roles. Created visual guides for job markets in major US cities and allowed users to get results tailored to their individual profile.

Golf Handicap Calculator +
A full stack single page application built using JavaScript and Ruby on Rails that allows users to record their rounds of golf and track your handicap.
